Today we depart to the Andaman Islands most amazing destination, Havelock Island. This destination is rated as the best island in India. Havelock is a picturesque natural paradise with beautiful white sandy beaches and crystal clear transparent waters, rich coral reefs and lush green forest. The island offers state-of-the-art facilities for snorkelling and scuba diving. It is one of the most populated islands in the Andaman group with an area of 113 sq. km. and is located 68 km north-east of Port Blair.

RADHA NAGAR BEACH

Begin our journey to one of Asia's best beaches, Radha Nagar beach lies on the south coast of Havelock some 12 kilometers from the island ferry pier. Radha Nagar is a grade a beach of approaching two kilometers and an average width of 30 to 40 meters. The sand is white coral, very fine in grain. The beach has a gentle gradient of around 1:20 and continues out 100 meters. South facing, the beach has excellent exposure and is not subject to shading which would reduce its attraction for sunbathing. The ends of the beach are contained by rocky outcrops which provide some variety to the littoral. The quality of water Radha Nagar beach is exceptionally calm and clear. There is very little wave action and consequently almost no turbidity in the water even along the surf line. Overnight stay at Havelock
